DETAILED ACTION

Drawings

New corrected drawings in compliance with 37 CFR 1.121(d) are required in this application because the drawings on file have several stray markings making them improper for printing. Applicant is advised to employ the services of a competent patent draftsman outside the Office, as the U.S. Patent and Trademark Office no longer prepares new drawings. The corrected drawings are required in reply to the Office action to avoid abandonment of the application. The requirement for corrected drawings will not be held in abeyance.

Allowable Subject Matter

Claims 1-2,4-10,12-14 are allowed over the prior art of record. The specific limitations of "at least two or more layers in which visually readable information is introduced in the form of a change in the optical property on the basis of a material change effected irreversibly by a laser beam....wherein each layer has a different absorption capacity for at least one wavelength...wherein the absorption capacity of at least one layer for at least one wavelength is at least partly reduced as a result of the laser radiation" is not anticipated or made obvious in the examiner's opinion.

Response to Arguments

Applicant's arguments filed 5/2/2006, with respect to the claims have been fully considered and are persuasive. The rejections of claims 1-2,4-10,12-13 have been withdrawn.

Terminal Disclaimer

The terminal disclaimer filed on 5/2/2006 disclaiming the terminal portion of any patent granted on this application which would extend beyond the expiration date of 6,827,283 and 6,986,926 has been reviewed and is accepted. The terminal disclaimer has been recorded.

Conclusion

This application is in condition for allowance except for the following formal matters:

Drawings objection, see above.

Prosecution on the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

A shortened statutory period for reply to this action is set to expire **TWO MONTHS** from the mailing date of this letter.
